

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## FROM THE SECRETARY.

Again I thank you for the honor you have conferred on me the second time, and shall try to perform my duties to your entire satisfaction. During the year 1895 we began a four year's study of the Mniotiltidae. Three members were appointed to supervise as many departments of the work. Have we assisted these members as much as we were able? Do we fully realize the time and money each of these chairmen must spend, and their responsibility? Can we hold those who have assumed such positions responsible for the report they must make, if we do not assist them? Let us flood those chairmen with so many notes, in the next three years, that they will have to hire help to get from beneath the pile! If we *all* send just such notes as we make in a season what a volume it would make! and the Chapter would fill the position it is destined to fill.

Respectfully,

J. E. DICKINSON.
